DETAILED ACTION

1. Amendment filed August 1, 2005 has been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Applicant's arguments filed August 1, 2005, have been fully considered but they are not found persuasive.

Claim Rejections - 35 USC § 101

4. Claims 14-34 remain rejected under 35 U.S.C. 101 because the claimed invention is not supported by either a specific and substantial asserted utility or a well established utility.

The reason for the rejection has been set forth in the previous office action.

Applicants argue that the nucleic acid claimed can be used as a minus target in methods to identify compounds which bind to and modulate galanin receptors. However, as indicated in the reponse the nucleic acid claimed does not encode a galanin receptor which binds galanin ligand. Thus the nucleic acid claimed is not a galanin receptor but an orphan receptor whose function is not known. The minus target is not a substantial utility because screening or any method which uses a nucleic acid encoding an orphan protein does not have substantial utility (*In re Fisher*).

Art Unit: 1646

Claims 14-34 remain also rejected under 35 U.S.C. 112, first paragraph.

Specifically, since the claimed invention is not supported by either a substantial asserted utility or a well established utility for the reasons set forth above, one skilled in the art clearly would not know how to use the claimed invention.

5. No claims are allowed.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
